		SECRET,	
		~ 2 ~	25X1A
25X1A	Party O.	Comment, Another source reported 16 medium AAA guns in the	
25X1A		Fritsch Kaserne in mid-Merch. The light AA guns observed according to the present report and which were previously seen in the barrachs installation allow the conclusion that the unidentified AAA Regt of the IX Mtz Rifle Corps is stationed in the installation.	25X1A
25X1A	2,	Corment. It is possible that the 338th Engr Bn of the 207th Mtz Rifle Div carried in the Tauentzies Kaserne already left for the summer training, although another source revorted the Bittkau engineer training site still vacant on 10 April. The units of the division from the Hindenburg Kaserse and Albrecht der Baer Kaserne were allegedly in their quarters prior to 14 April.	25X1A
25X1A	3.	Comment. Probably, begin of the transfer to Altengrabow of units of the 34th Arty Div (US) which was previously announced by another source.	
25X1A	40	Comment. Probably, preparations for the transfer to Templin of units of the 6th Gds Mecz Div which, according to paragraph 4, began on 14 April.
